

DELIVERY & TRANSPORT

- Most sales and hire containers can be delivered within 2 working days.
- Crocodile Containers handle transport for hire containers, as customers are not allowed to relocate these containers themselves.
- Please ensure site access is suitable before delivery (avoid steep slopes, sharp turns or uneven ground, inform neighbours if shared access is required, etc).

TILT-TRAY

Most cost-effective delivery option. The container slides off the back of the truck onto site. Best suited for locations with clear, straight access for the delivery truck.

CLEARANCE REQUIRED

Height: 7m
Length: 20m
Width: 3.5m

SIDE LOADER

The truck lifts the container off from the side and places it directly on the ground. Useful where reversing space is limited, but requires clear side access.

CLEARANCE REQUIRED

Height: 4.6m
Length: 16m
Width: 6m

HIAB CRANE

Used when access is tight or obstacles prevent normal delivery. The crane lifts the container into position. Premium delivery option.

CLEARANCE REQUIRED

Height: 10m
Length: 10m
Width: 4.3m
